

The Annual African Ladies Group Dinner and Dance

The beat is in the feet, let's dance!

The African Ladies Group raises funds for awareness and sustainable projects that brighten lifestyles in the local villages where each of our members comes from, in Africa. The projects include well digging for water, latrines, tree planting, sewing machines for girls, wheelchairs for the disabled, school fees, and feeding orphans. We will screen a slideshow of past projects so join us, bring a friend and be part of the development of our villages, simply for the sake of women and children in need.
